Started out with a spark  
Turned into a vibe  
Spread into a fire  
That could never be tamed

But I don't wanna know  
No, I don't wanna know  
Why things need to change  
At the end of the day  
I just want you to stay  
Stay the same for me

Are we going up or down?  
Have we had enough for now?  
I wish I could find out how  
How we could grow up  
How we could slow down

Are we going  
(Up or down?)  
Are we going  
(Up or down?)  
Are we going  
(Up or down?)  
Are we going  
(Up or down down down?)

I know things have been tough  
But I don't want you to change  
I know things have just started  
To get carried away

No, I don't wanna know  
No, I don't wanna know  
Why things need to change  
At the end of the day  
I just want you to stay  
Stay the same for me

Are we going up or down?  
Have we had enough for now?

I wish I could find out how  
How we could grow up  
How we could slow down

Are we going  
(Up or down?)  
(Up or down?)

I wish I could find out how  
How we could grow up  
How we could slow down  
Are we going?

And I don't care what they're saying  
Cuz I know it ain't true  
Cuz I've been there and I've seen you  
And my heart belongs to you  
But I need you to know  
Yes, I need you to know  
That everything I drew except for you

Are we going up or down?  
Have we had enough for now?  
I wish I could find out how  
How we could grow up  
How we could slow down

Are we going  
(Up or down?)  
(Up or down?)

Are we going  
(Up or down?)  
Are we going  
(Up or down?)  
Are we going  
(Up or down?)  
Are we going  
(Up or down down down?)
