"Been Waiting"

Visit "[Been Waiting](#)" on MotoLyrics.com

I've been waiting a long time
to see you smile the way you'll smile tonight
And, this is the right time,
and every eye in the room is on you tonight

So don't be afraid, 'cause everyone you need is here,
alright
You'll be safe, in his hands and in his arms the rest of
your life
Been waiting a long time - is on your side

Time to love, to live, to laugh,
to build a future and a past
And if love is in your life,
together you will live happily to you from your loving
family

So don't be afraid, 'cause all your dreams are coming
true tonight
You'll be safe in his hands and in his arms the rest of
your life
Been waiting a long time, been waiting a long time

And I know that everything for you, it's gonna be okay
I know, you'll be smiling for the rest of your days
So close your eyes, 'cause now it's time,
and don't be afraid

So don't be afraid, 'cause all your dreams are coming
true tonight
You'll be safe in his hands and in his arms the rest of
your life
Been waiting a long time, been waiting a long time
