I'm closing my eyes
So I can see you standing there
Closing my eyes
And even though it's just a dream
I notice everything you wear

Dirty blue jeans with a rip in the right knee
A creased up gray t-shirt with no label
Your hair tied back behind that black hat that you stole
from me

Hey, hey
These are the things that I remember
Hey, hey
How could I forget
You are the one that saves me
You are the one that helps me to feel
Can you believe it's happening
Is this for real

I know you know, taking time apart would be better at
the minute
But, let go.... hell no
I won't waste my time in this life unless you're in it
But I know why
I know why we're growing inside each other's eyes
I miss those eyes

Hey, hey
These are the things that I remember.
Hey, hey
How could I forget
Hey, hey
I wish we could relive September
Don't you know you're the best
You are the one that saves me
You are the one that helps me to feel
Can you believe it's happening

Is this for real (x2)

There's something in your eyes
You know it gets me everytime
It makes me want you
It makes me miss you... and it reminds me
You are the one that saves me
You are the one that helps me to feel
Can you believe it's happening
Is this for real
Is this for real

Dirty blue jeans with a rip in the right knee.
A creased up gray t-shirt with no label
Your hair tied back behind that black hat that you stole
from me
