Winter days make me say what the hey  
Let's say what we needed to say  
Since way back when we sailed  
out inhibitions  
Hold on tight 'cause this is so the truth...  
This is so the truth

I love the way that we laugh until we cry  
Dance until we die  
I love the smile with which you look at me  
And say get ready for this Aaron  
Get ready for this

I hope this gets you harder  
I hope you act so much stronger that  
I imagined  
Honestly it gets you every time that i  
want it to  
Honestly i think you're strong...

I love the way that we laugh until we cry  
Dance until we die  
I love the smile with which you look at me  
And say get ready for this Aaron  
Get ready for this

I want you to remember me  
When they tell you this so easy, so easy
