[Verse 1:]

Grain of sand, no man's land, I wanna fly
Fade away, that's okay, I enjoyed the ride
Incognito, fireflies, burning up my eyes
Sanctify or receive a fortune full of lies
Cover me- Disconnected all the way down
I Gotta hold on

[Chorus:]

Beggars and thieves
They won't bring you no peace
Beggars and thieves
They're living on a one way street
Standing on the edge of madness
I look down and what do I see
Beggars and thieves

[Verse 2:]

Detour ahead-it pretends to save the day
Full of hope, low on faith, I feel compelled to pray
Overwhelmed with emotion, the tea has been brewed
Indiscreet and abandoned, I guess I'm pretty well
screwed
Forgive me, feeble minded out of control
Break down, shakedown

[Chorus]

[Bridge:]

Safe cracker, scene stealer, a thief of the first degree
Heartbreakers with no takers What does it mean?
Dreaming of a time with no pain, Dreaming of the time
when they came
Nothing here but faded pictures, kinda smooth with
faded textures
