I'm an sky ridin', star climbin',  
I keep on lookin' but I just can't find it  
Hit my brain I feel pain, I hear the voices and I can't  
explain  
Feels a like laser, cuts like a razor  
The resolution of bad behaviour

It's like the hour, that will devour  
I'm out of time and I'm out of power

Fly too high, everything just seem so small  
Fly too high, the clouds below will break your fall  
Break your fall

I've had, time's faded, not wasted  
Now I feel like I'm isolated  
I was a searcher, I had a fever  
But what I found was nothing to believe in

All the noise and all the choice  
I'm still left with one big choice  
To run with the pack, to run down the track  
I guess I've found there's no way back

Fly too high, everything just seem so small  
Fly too high, the clouds below will break your fall

Year after year it's drivin' me crazy  
Year after year it's drivin' me mad  
I don't, I don't, don't what to do no

Fly too high, everything just seem so small  
Fly too high, the clouds below will break your fall
