you got the love i'm looking for
i've been waiting all year just to be with you
you've got the love i'm looking for
i've been waiting all year just to be with you
you're the one girl, my heart beats for!
and i hope you feel the same way!
it's been way too long since the last time i've
seen you, seen you!
it feels way too strong, girl i promise i need you, need
you!
i'll keep you warm by the fire
in my heart is only desire
i promise i'm not going away, yeah, yeah!

chorus:

i told you i'm gonna be home for christmas
i promise that you wouldn't be alone
i promise that i won't be gone alone
i'll be home for christmas!
i don't need a gift under the tree,
all i need is you!
that is christmas!
i promise, promise you, girl, girl
i'll be home for christmas this year, my dear!
i promise i'll be home for you!
uh, oh, i'll be home for you!

i'm and left alone
when i see your phone call, girl, i feel at home
need you hot to keep me warm in this cold world
wanna show you how much that i love you girl
it's been way too long from the last time i've
seen you
seen you! it feels way too strong, girl, i promise i need
you!
i'll keep you warm by the fire, in my heart is only
desire!
i promise i ain't going away, oh, oh!

chorus:

i told you i'm gonna be home for christmas
i promise that you wouldn't be alone

i promise that i won't be gone alone
i'll be home for christmas!
i don't need a gift under the tree,
all i need is you;
that is christmas!
i promise, promise you, girl, girl
i'll be home for christmas this year, my dear!
i promise i'll be home for you!
i promise i'll be home for you, yeah!

silent night, i'm coming home to you!
the snow is falling from the sky
girl, i'm ready, i'm ready to
i'm on my way, i'll never make a promise that i
can't keep
it's this why you anticipate my loving today!

chorus:

i told you i'm gonna be home for christmas
i promise that you wouldn't be alone
i promise that i won't be gone alone
i'll be home for christmas!
i don't need a gift under the tree,
all i need is you;
that is christmas!
i promise, promise you, girl, girl
i'll be home for christmas this year, my dear!
i promise i'll be home for you!
i promise i'll be home for you, yeah!
