Now that I'm blind I can finally see
It's a beautiful thing that'd happened to me
Among the living dead is where I wanna be
Let me eat your brain and I'm sure that you'll agree

[Chorus:]

Oh Tina if you really love me
You'll let me eat your brain

My life has gone now and passed away
But death is a party I'm here to say
Send more cops Come out to play
Come on little baby and I'll show you the way

[Repeat Chorus]

[Bridge] Let me eat your brain [4x]
[Repeat Chorus]

*Out in the graveyard in the acid rain
I know a way that you can ease my pain
Try it once and you'll never be the same
Come on be my ghoulfriend and let me eat your brain*

[Repeat Chorus]
