Junkie rapist...

He likes to assdrill the poor teen
While he's taking ecstasy and LSD.
To extend the intercourse
He usually take heroin directly in the penis.

He is a mad freak
Who has killed thousand girls.
That bastard feels satisfaction only if
He fucks with cocaine on the cock...

He has AIDS and hepatitis:
His blood is full of bacteria
That passes to his innocent victims
Before he suffocates them.

He is a mad freak
Who has killed thousand girls.
That bastard feels satisfaction only if
He fucks with cocaine on the cock...

He has AIDS and hepatitis:
His blood is full of bacteria
That passes to his innocent victims
Before he suffocates them.

He hates condoms,
But he loves speed and hallucinogen...
He always mix alchol and barbituric:
A fuck is better under drugs...

Junkie rapist...
