You come closer still  
Closer now, closer till  
I can feel you and what you do

It's nothing like real life  
Don't you know I keep trying  
To keep it cool as ice  
But I'm melting, oh yes I'm melting

Whenever you're around you hit baby  
I'm hit baby  
Whenever you're around you hit baby  
I'm hit baby

I run right up dimension 2  
I run with you  
I don't know how  
To stop it now

It's nothing like real life  
Don't you know I keep trying  
To keep it cool as ice  
But I'm melting, oh yes I'm melting
