I was walking in the rain
When the angel of my intuition whispered hello
And then i turned around there was you
Well, i was quite surprised to face that kind of
incarnation
Love is always unexpected, love strikes blind and
undirected
An it's amazing how my life became the wildest game
of all
I never knew without your love
And since i fell for you i fail to brave the heavy weather
Raging round the axis of my heart
And i don't, i don't need to..

Whenever i see you i want thunder and lightning
Whenever i touch you i feel thunder and lightning
Whenever i hold you i feel better than the time before
That's what i want, thunder and lightning for evermore

There were times when i was down
There were times when all my hopes had faded
My whole life just seemed to be a senseless quest for
energy
But love is the answer, love is all we need my friend
Now you came & changed the weather
Now i wanna live forever

Yes i admit i'm playin' with powers that i can't control
But i tell you, i will do the best i can
We're on a crash course plane that's heading down to
paradise
And that is the intention of the plan and i don't need no
heaven

What do you want? you know it! what do you want then?
I tell you what i want! i tell you what i need!!
I don't need no heaven!!!
I need thunder and lightning, don't need no
heaven!!!!!!!!!!!!
