System breaks down
Just when I thought I had it made
A message, show you how I feel
Nothing stays the same
Hunt out misguided angels
Search in vain amongst the ruins
A message, do you know how I feel?
Nothing stays the same
Nothing stays the same
Search in vain, silent dreams starting again
Wake up and out of sleep
Far from your crowds
Shattered halls
Covered in squander
A message, show you how I feel
Nothing stays the same
The same, the same
A message, do you know how I feel?
Nothing stays the same
Nothing stays --
