Six floors away  
Missing presence everyday - in every way  
Floors as obstacles  
Walls as dividers  
Nothing proverbial to speak  
Feelings concentric  
Circles managing to work as surrogate providers  
Provide me  
This circuit is not enough anymore - it's not truth  
And I want more [x2]  
The math doesn't fit into a resolve, it's not truth  
Can this evolve?  
Is this too complex to evolve?  
To evolve

Six floors away  
Missing presence everyday - in every way  
Floors as obstacles  
Walls as dividers  
Nothing proverbial to speak  
Feelings concentric  
Circles managing to work as surrogate providers  
Provide me

I feel this way every day  
Must be something in the water

This circuit is not enough anymore - it's not truth  
And I want more [x2]  
The math doesn't fit into a resolve, it's not truth  
Can this evolve?  
Is this too complex to evolve?  
To evolve

How long do I wait  
I will wait
