Going to school she learned to read and write  
So much is new and life's full of wrong and right  
Homework is done life has just begun  
Hello world here's daddy's girl

Waking up early morning living in her own place  
Taking a shower staring in the mirror at a tired face  
Something for breakfast doing her face  
Feeding her pet just like every other day

Still she isn't knowing when she's locking the door and  
going to her work  
That in the morning next day she won't sleep alone  
Later on in the evening she'll be riding on a feeling  
Still she's somehow gonna be needing just a beer more  
or two

Daddy's girl, here's daddy's little girl  
Daddy's girl, here's daddy's little girl

Party and music feels like this night could last a  
lifetime  
Ain't gonna lose this feeling tonight she'll leave it all  
behind  
A kiss and a hug from one of those guys  
But she leaves with another in a cab in the night

Unlocking the door she's weary she can feel his heavy  
breathin'  
Not too sure if she's still playin' a game or if she really  
feels like screwing  
Is this really loving she is feeling really nothing  
Still she is letting him proceed with whatever that is he  
is doing

Daddy's girl...

A kiss and a hug from one of those guys  
But she leaves with another in a cab in the night  
Who thinks of protection or the choice of rejection  
When he is just about all done and her head is dizzy  
from all the free beers

Daddy's girl...
