My body rests in a dark chamber  
As I am receiving final farewells  
A saddened silence fills the air  
The smell of flowers, the smell of death

The latch is opened, my skin reflects the light  
A short prayer is recited in my honour  
Some take a step forward, their stares descend  
Looks of deception, looks of despair

Some are faceless, some are caught in the moment

Communication at light speed occurs  
faster than words can be expressed  
One-way telepathy provides the living souls  
a sense of presence when left alone

A mental sketch is tattooed on their minds  
time to say their "adieux" arrives  
My vessel sealed, a cold breeze strikes the world  
beyond  
I am imprisoned from the world of light

Some induce tears, hostage to emotion

Looking from above, I can feel their pain  
... I will guide  
Purity resists, faith will overcome  
... I survive  
They forgive my sins, I can feel the peace  
... Of my life  
Looking through their souls  
Timeless sense of loss, overtaking thee  
... I will guide  
With a mere remorse, they will call to me  
... I survive  
Tell the secrets of an unforgotten past  
... Of my life  
Looking through my soul...

Voiceless.. but present...

Some can feel it, some ignore the forces

As I descend into the depths of goodbyes

The raining earth is bestowed upon my being  
As I watch over and comfort thee

A last prayer in unison begins

Forever lasting, words do not die  
Priceless balance

"You feel I have abandoned you, but it is you who left  
me behind"
