I think everybody has fantasised what they would ask
Elvis if he was still alive.

I know what I would ask him:

"What's your favourite film?"

Jaws? Jaws 2? More Jaws? Or Jaws rebooted?
Please, let's take a second to think about a future state
of love and bliss
Brought to you by wishlists of eight year old boys
Who only crave explosions
Why?
Well, being eight, they have an excuse - they're eight!
And giant robots cannot distract them from their fate

Middle aged men on a movie date, committed to
mortal shame

Hey! Relax! No-one died - in fact, they left improved!
If Michael Bay wants a bigger house, let's help him
Art? Ha ha ha!
Where you from?
Where you been?
He said:
I went to Cannes once and really did not have much fun
Why?
Well, being French, they talk too much
And all those pages of subtitles kept getting stuck

1 becomes 2, 2 becomes 3
1 becomes 2, 2 becomes 3

Pirates of the Caribbean 47
Johnny Depp stars as the robot pirate who loses his wife
in a game of poker
And tries to win her back with hilarious consequences
At least Harry Potter has a proper story in the sense
That the characters crave an ending
If only to release poor Billy Corgan from his role
As the titular character's nemesis
Robocop 4 is in pre-production, like Robocop 3 wasn't
bad enough

And George Lucas won't be kicking his heels 'til he
Makes some money from Howard the Duck
Robocop 4 is in pre-production, like Robocop 3 wasn't
bad enough
I hope the projectionist likes his action motion-tracked
and medicated

(The first director died)
