I like my women like I like my money in my pocket  
I can't say anything nice so I might as well smile  
at the picture in my wallet  
I like my bruises clean my bruises fresh my bruises  
days old  
She is the opposite of sex but the opposite of sex  
is still better than love

Crawling to camera six  
Camera six, camera six  
[x2]

I fear most women like I fear tomorrow, absolutely  
I can't let something as French as fear determine this  
insecurity  
I need my heroes dead my heroes bald my dreams  
disabled  
She is the opposite of sex but the opposite of sex  
is still better than love

Crawling to camera six  
Camera six, camera six  
[x2]

A full-length mirror - the greatest love a man could  
ever know
