Girl you make me feel  
Like running away  
falling to a higher place  
and i just cant explain it  
could it be real?  
dont want it to end  
I wanna go higher  
girl wont you take me  
girl im falling up up up  
falling up up up  
falling up up up for you  
girl im falling up up up  
falling up up up  
falling up up up for you

meeting you was fate (ha)  
becoming your friend was a choice i had to make  
but falling in love with you  
was out of my control  
now im needing you to hold  
i dont wanna let go  
gravity wont let me come down  
cuz the more i fall  
I'm floating to the clouds oh  
I have no wings  
and i cant fly a plane (ahh)  
girl how is it possible  
that you make me feel  
like running away  
falling to a higher place  
and i just cant explain it  
could it be real?  
dont want it to end  
I wanna go higher  
girl wont you take me  
girl im falling up up up  
falling up up up  
falling up up up for you  
girl im falling up up up  
falling up up up  
falling up up up for you

I'm wondering to myself  
Whether or not you felt the same things that I felt  
and its so hard to keep all my sanity  
but im already gone  
theres nothing left to show but gravity  
gravity wont let me come down  
cuz the more i fall  
I'm floating to the clouds oh  
I have no wings  
and i cant fly a plane (ahh)  
girl how is it possible  
that you make me feel  
like running away  
falling to a higher place  
and i just cant explain it  
could it be real?  
dont want it to end  
I wanna go higher  
girl wont you take me  
girl im falling up up up  
falling up up up  
falling up up up for you  
girl im falling up up up  
falling up up up  
falling up up up for you
