ay ay ay heyy
Im like damn
eff what them haters sayin
i got a job and im off to my
Im gettin paper (paper man)
eff what them haters sayin
yes i got a buy at the bar
you got haters
put your bottle up in the air
this ones for the road
because the game dont change us
We're game changers

the introduction has been made
and the bars been raised
and they cant make the grades
so they all gon' hate
but the bars been paid
we're all feelin great
just wipe the game clean
heres a brand new slate heyy
we're steppin out like tip toes on the sideline
21 in any game so you can call me primetime
the movement in evident
what you do is irrelevant
the elephants are steppin and they're changin the
game

im like damn
eff what them haters sayin
i got a job and im off to my
Im gettin paper (paper man)
eff what them haters sayin
yes i got a buy at the bar
you got haters
put your bottles up in the air
this ones for the road
because the game dont change us
We're game changers

[Sam Adams]

yeah
im reggie from the 3
the revenge on the D
And aint nothin changin in your line-up but me
the games in my hand
relax you cant breathe
hit hard from the train on tracks you cant see
uh gamechangers, so eff what them haters say
they on the sidelines watchin, they dont get to play
these dudes frontin like they really gettin money
but the hungry pourin jealousy on us
and they gettin paid
its funny how shook yall feel
im a challenge red flag on the football field
in the club i cant count how many looks i steal
might as well buy the bar
already took their meal
yeah and most fans cant believe this shit
i came up Cinderella story read us bitch
i got the C on my arm First Round
and im leadin this now, thats what i call leadership

im like damn
eff what them haters sayin
i got a job and im off to my
Im gettin paper (paper man)
eff what them haters sayin
yes i got a buy at the bar
you got haters
put your bottles up in the air
this ones for the road (one for the road)
because the game dont change us
We're game changers
