She does something to me,  
So hard to explain,  
When I can't be with her,  
I'm all wrapped up in pain,  
Oh there's something about my baby,  
I can't help a little bit shows,  
Something about my baby,  
I'd tell you but I just don't know.

Like an actress in a movie,  
She commands the stage,  
With a flair for fashion,  
The woman's all the rage,  
Oh there's something about my baby,  
I can't help a little bit shows,  
Something about my baby,  
I'd tell you but I just don't know.

You know every time she's near me,  
I just can't stan the heat,  
She drive me with a passion,  
Stirring up the street,  
Something about my baby  
????

She's a complicated lady,  
Never really sure,  
It's worth it, all the heartache,  
For the passion that she stirs,  
Oh there's something about my baby,  
I can't help a little bit shows,  
Something about my baby,  
I'd tell you but I just don't know.
