You have me in love yeah
I think I'm in love
Cuz all I see hearts all around me
Like a fantasy
You have me in love yeah
I think I'm in love
Like we were born for each other
In this world we see

My heart has been filled with the purest of love
Every time it beats it's like I'm living up above
Not even when I'm asleep can I stop thinking of you
I try to calm down even just for a few seconds
I say your name I don't even notice
My mind is only focused on you
You got me going crazy
Insane to be who we could be
In a perfect world our own fantasy
Any place with you is already paradise
In burning lava or in freezing ice
I can survive any temperature to be by your side
You see, I don't know what it means to be in love
But I'm pretty sure you're making me feel some
Perfection is what you bring to my days
The creations you make will always stay
Forever in play cuz

You have me in love yeah
I think I'm in love
Cuz all I see hearts all around me
Like a fantasy
You have me in love yeah
I think I'm in love
Like we were born for each other
In this world we see

Everybody tells me that you have me changed
That you gave me something cuz I am not the same
I'm whipped I'm screwed inside the brain
I scream thug life cuz I remain unchanged
Yet, you create a person who is strong inside

Lives life to the fullest with no doubt in mind
I guess you can say I've been living blind
You're corrections ha! Were just too kind
With you I can see everything without fear
I can fly to the moon, rocketeer
You give me motivations and a deeper feel
You're just too perfect to be real
I've been looking for flaws but I can't find any
On the contrary you have left over beauty for many
So get ready, I already know what I have to say
It's a matter of time and a sunny perfect day

You have me in love yeah
I think I'm in love
Cuz all I see hearts all around me
Like a fantasy
You have me in love yeah
I think I'm in love
Like we were born for each other
In this world we see

There aren't too many people in the world who can claim
A buddy like you that can keep them sane
We were just friends but feeling began to change
Never told you because I never wanted to explain
That you were more than a friend to me
And every time that I saw you I was like "man, this is
destiny"
But I never treated you different you were still my
home girl
That's the way you would like it wouldn't want to create
a swirl of emotions
From ocean to ocean imma miss you for sure
Believe that I have faith in you no need to reinsure
You know that I'm here for you
When everyone is missing I won't disappear from you
Ever so
Look at the sky when you're feeling lonely
Look at the sky when you need some holding
Look at the sky when you want to say what's up
I'll look at the sky when I'm missing your love, always

You have me in love yeah
I think I'm in love
Cuz all I see hearts all around me
Like a fantasy
You have me in love yeah
I think I'm in love
Like we were born for each other
In this world we see
