"Miamized"

Miamized, this is life without regrets,
With a plastic pandemonium
We can hide the pain and sorrow of the people in this
Land.

In every town, we can mask reality,
In this ontologic drama of Division and undercover you
Must pay to exist.
Culture is denied, forget it brother!
Look miamized, eat miamized, wear miamized

And do the exact moves or you will be threatened and
Blacklisted,
Rejected and damned to live in fear.
Culture is denied, forget it brother!

Look miamized, eat miamized, wear miamized

We like to watch the show but we know what is the truth
We know the truth In latinamerica, every city is
Miamized,
In Europe and usa we're getting there.

The ones that cannot hold this way of life are called
Subcitizens
This is the truth that we all know
There are a few names who rule a town, a country,
A world or uprights and subcitizens.
