

G.g.f.h. "Forgiven"

Visit "[Forgiven](#)" on MotoLyrics.com

Through the lace I see your hidden face
In your eyes the burning phoenix flies
Off your lips the crimson color drips

Demons in flight
Comfort me in black and white
Reduced to dust

Blood flowing filled with lust
Nails dug deep
Another night no sleep

No domination
Submit to me no hesitation
No domination there's no regrets
Submissive dedication

Silk and skin
We end and begin again
Into the dark

You come and leave your mark
Two as one
Eyes hiding from the sun
