Kill me with a beat

Some people seem to think they always know what's
best for you
Their little minds try to create a world to keep you still
The bolt is thrown, the cage is locked, you saw this,
don't you lie
At first you cry and then you hate those people stole
your will

Do as you are told and maybe then we'll let you out
You might be dead and cold, you might be full of doubt
Don't try to escape 'cuz you don't have nowhere to go
If nothing is your fate, there's no scenario
(No nothing)

Do you call my name
Do you stain my brain
My eyes are blurry and I can't see you anymore
Do you call my name
Do you breed my pain
My heart is bloody and I can't take it anymore

So you just sit there, stuck, afraid to risk reality
Afraid to cause yourself more pain, to face insanity
But nothing ventured, nothing gained you see, your
fear's your cage
You beg for help but you're alone, stuck in a helpless
rage

Do as you are told and maybe then we'll let you out
You might be dead and cold, you might be full of doubt
Don't try to escape 'cuz you don't have nowhere to go
If nothing is your fate, there's no scenario
It's me I see, please let me out, I'm petrified

Do as you are told and maybe then we'll let you out
You might be dead and cold, you might be full of doubt
Don't try to escape 'cuz you don't have nowhere to go
If nothing is your fate, there's no scenario
(Come on)

Do you call my name
Do you stain my brain
My eyes are blurry and I can't see you anymore
Do you call my name
Do you breed my pain
My heart is bloody and I can't take it anymore

Do you call my name
(Do you call my name)
Do you stain my brain
(Do you stain my brain)
My eyes are blurry and I can't see you anymore
Do you call my name
(Do you call my name)
Do you breed my pain
(Do you breed my pain)
My heart is bloody and I can't take it anymore
