“In a time of love”

Rachel:

There was a time when love
Could help me with my heart
All the days went fast, but there’s
Nothing I could do, not a cloud in sight
Just if you were with me tonight and you would
See a thousand shines {at night}

Erica:

If you’ve lost your way...come back {come back}

Chorus:

The moon, the stars
The earth that lights up for us {that was made for us}
The rain, the cloud
The thing that sends love down
Just to be alone, in your arms
In a time of love

Candilea:

There was a you and me
When love was so brand new
That’s when I gave my heart to you [ooh]
The only wish that I could just find that star
That shines to your heart, if you’re listening
To this baby I just wanna let you know
You are a thousand things

Chorus:

The moon, the stars
The earth that lights up for us {that was made for us}
The rain, the cloud
The thing that sends love down
Just to be alone, in your arms
In a time of love

Chorus:

The moon, the stars
The earth that lights up for us {that was made for us}
The rain, the cloud

The thing that sends love down
Just to be alone, in your arms
In a time of love

Verse 3:

Say if the moon and stars
Let us be as one
But if they just took time
We would have a love
Never denied, but you
Shine so bright...

Chorus:

The moon, the stars
The earth that lights up for us {that was made for us}
The rain, the cloud
The thing that sends love down
Just to be alone, in your arms
In a time of love

Bridge:

When you can't find your way
Out of love, say if your hearts been broken
And you feel rejection of if your hearts been
Let down, just look up to the stars find the brightest
One, cos you are true and, the star is you
{And you are the star} you're made as one [one]

Chorus:

The moon, the stars
The earth that lights up for us {that was made for us}
The rain, the cloud
The thing that sends love down
Just to be alone, in your arms
In a time of love

Chorus:

The moon, the stars
The earth that lights up for us {that was made for us}
The rain, the cloud
The thing that sends love down
Just to be alone, in your arms
In a time of love
