"One More Night"

I thought the world was at my feet
Till you came around
Your love is all I ever need
So don't let me down
True love can have no denying
Girl, can't you see how I'm crying

Chorus:
Give me one more night
Give me one more time
One more night
I need you to be mine
Repeat(1x)

Walk through the night alone again
And it's breaking my heart
You once told me that you were my friend
Through these tears we must part
True love can have no denying
Girl, can't you see how I'm crying

Chorus(2x)
Don't let our love fade away

I thought the world was at my feet
Till you came around
Your love is all I ever need
So don't let me down
True love can have no denying
Girl, can't you see how I'm crying

Chorus(5x)
