Shoot em up, shoot em up
Shoot em up, baby, baby
I love your bitch, she love me too
She told me how you try to love me for my jewels
I love your bitch, she love me too
She told me how you try to love me for my jewels
She talking this and this and this and this yeah right
That and that and that and that all night
this and this and this and this yeah right
That and that and that and that
5 in the morning, guns in my face
Screaming out ice where the fuck is the safe
Blood in my eyes, I think I'm bout to die
My head hit the floor, I think I'm bout to cry
They talking bout some shit that I did in '06
How I made an oath and how I did an ...
Then I get a car, yeah that's my bitch
She tell me she knows who hit

Tell me where them niggas at,
Girl I gotta get them bad
Know how I'm feeling
She say that I'm riding day and night
where them niggas at,
Girl I gotta get them bad
Know how I'm feeling
She say that I'm riding day and night
where them niggas at,
Girl I gotta get them bad
Know how I'm feeling
She say that I'm riding day and night
Where them niggas at
I know who did it
Tell me where them niggas at
Where them niggas at
Tell me where them niggas at.
