From the world outside, you're hiding your face
But I can see you shine, I can see you shine
You think your life has all but been erased
But I can see you shine, I can see you shine
I can see you shine, I can see you shine

Chorus:

The hands of time, they keep turning
And it's more than you can take
But don't forget you're still learning
And one day you'll find your place,
When you're ready

When you walk by, the angels sigh again
I can see you shine, I can see you shine
While the others may not notice anything
But I can see you shine, I can see you shine
Yeah I can see you shine, I can see you shine

Chorus:

The hands of time, they keep turning
And it's more than I can take
You caused a spark, now it keeps burning
Even through my darkest days
I'm ready

I wanna love you for a little while
Or as long as you like
Just a moment in your company
Would that be alright
I can see you've had a bad day
From the look in your eyes
But baby so have I
Yes, no need to hide

I can see you shine, I can see you shine x2

Come with me now, come with me now
In the morning sun, together we will rise
I can see you shine, I can see you shine
