I've been here for a long long time waitin' all alone

Waitin' here in this old house by the telephone

Sittin' in this same old chair lookin' out to blind

There ain't been a day gone by that she ain't on my
mind

Goodbye lonesome hello baby doll goddbye lonesome
you almost drove me wild

Well I feel a little trickety on the line she's done told me
she's mine oh mine

Goodbye lonesome hello baby doll

[guitar]

When she is here I'm tellin' you we're gonna celebrate

And all those hugs and kisses you couldn't count a late

When she holds me I can't explain the way I feel inside

Goodbye you old lonesome I got myself a bride

Goodbye lonesome...
