I've got the bull by the horns on a downhill drag

Think it's better than it ever have been

I missed a lotta lovin' in my lifetime

But I'm never gonna do it again I'm never gonna do it
again

I love the brunets the red heads and blonde haired
women

Yeah I done it since I don't know when

I go down the line and I love 'em all gonna start out
over again I'd love 'em over again

I've got the bull by the horns...

[guitar]

I've got the bull by the horns...

I've been a rompin' and a stompin' all over this town

Tryin' to find the places you've been

Missed your huggin' at last around

So I think that's goin' round again that's goin' round
again

I've got the bull by the horns...
