Madness my friend  
Play my next note  
It seems you've waited for long  
To carry on  
Madness old pal  
Keep the shadows from me  
And taste the chaos in my mind  
Come take me

Sometimes it seems  
The world comes to an end  
Sometimes pain goes away  
But not today

Today it all broke into pieces...

Applauses fade away  
Stupid smiles  
Good night I have to go  
Lights turn off right behind me

Methods of Chaos  
You're all unknown  
Hiding in the corners of life  
Inside me

Methods of Chaos you make feel all this is only  
A waste, I'll live as long as these fingers move  
So I don't get fucking insane

Methods of Chaos you drove me to this place and left  
me  
All by myself, a forever waits at the end  
And a never hunts me, embraces me
