are you afraid to fall? will you tell me man?  
do you see the core? every now and then  
thinking of your past, you're thinking of the rest  
thinking that you're weak

the enemy is inside you - no!  
going insane - no!  
heart insults - no!  
shut the fuck up now! listen to the fire!  
the enemy is inside you - no!  
going insane - no!  
heart insults - no!  
shut the fuck up now! listen to the fire!  
or we won't talk...

but you won't regret what you did before  
tell me what you see deep inside yourself  
then you start to run from your own disease  
inside you the war just cutting out your dreams

the enemy is inside you - no!  
going insane - no!  
heart insults - no!  
shut the fuck up now! listen to the fire!  
the enemy is inside you - no!  
going insane - no!  
heart insults - no!  
shut the fuck up now! listen to the fire!  
or we won't talk...

and you know someone else lives in your mind  
and someone else sees through your eyes  
i sit in front of you at nights  
waiting to possess you  
no! i just want to be alone  
while the air pierces my lungs  
it's hammering my head, saying hurt yourself  
and die

wish it was a lie, it's a hidden truth  
you feel it inside knocking at your door  
thinking of your past, you're thinking of the rest

thinking that you're weak, you're living just too fast
