There you are, bathed in bright light
All your friends have gone
You've had a great fright
But all the world's a stage

Don't be shy, take your place now
You know the show must go on
Despite how crazy this night feels

On your mark, watch your step, go
All your life led you here, so...

Say goodnight, Lullaby
Say goodnight, don't say why

Cuz there you are, bathed in bright light,
All your friends have gone
You've had a great fright
But all the world's a stage
