How to leave you now I feel I made a mess of things  
Want to shout out loud I want to tell you everything

Thats enough of these days I dont want to keep waiting  
Its getting so late

Say the words I'll let it go Its time I should be getting  
home Its time for me to go Thats all you need to know

How to leave you now I want to make the best of things  
I want to live it down I want to give you everything

Thats enough of these days I dont want to keep waiting  
Its getting so late

Say the words I'll let it go Its time I should be getting  
home Its time for me to go Thats all you need to know

And I will ,be there Only in your dreams And I will be  
there

Thats enough of these days I dont want to keep waiting  
Its getting so late

Say the words I'll let it go Its time I should be getting  
home Its time for me to go Thats all you need to know
