(feat. Ladysmith Black Mambazo)

Hush now baby don't you cry
Rest your wings my butterfly
Peace will come to you in time
And I will sing this lullaby

Know though I must leave my child
That I would stay here by your side
And if you wake before I'm gone
Remember this sweet lullaby

And oh, through darkness, don't you ever stop
believing
With love alone, with love you'll find your way
My love

The world has turned the day to dark
I leave this night with heavy heart
When I return to dry your eyes
I will sing this lullaby
Yes I will sing this lullaby
