From album "More than life"

It's not so easy finding your own way
Drawing from within, believing every day
To rise above the ordinary
Break the mold escape the clay
It's not the easy way that leads us
To your greatest destiny

Chorus

Daring to look
A little further
Wanting to hope
To just believe
Casting the doubt
Aside each morning
Giving your all
All for a dream

Our life's a vapor
A moment and it's gone
Every day a treasure, a page to write upon
As we reach beyond our weakness
Drawing from our inner strength
All the world awaits in wonder
At the miracle they see

Chorus
