From album "More than life"

I can't wait to get over to your place to see you
I can't wait to leave work today to be near to you
You bring me up and I'm never down when we're
together
It's something special and i hope I feel it forever

Chorus

I like what you're doing with your crazy kind of love
I like how it's feeling with your crazy kind of love
Keep giving me all your crazy kind of love
You do what you're doing and that's all I'm thinking of

You're the first thing I think about every morning
You've taken over all my thoughts without warning
But don't think that you'll ever hear me complaining
Cause life is sunny with you even days when it's raining

Chorus x2

I always knew my life could be this way
And baby all I want is for you to stay
You fill my life with joy every day
And I'm so glad I have the chance to say

Chorus x2
