I don't wanna wake up in a crowded room
No room to move, clowns to the left of me
Jokers sniffing helium from balloons
'Cuz they got nothin' better to do

You know those days when
You can't hear above the noise
And all your doubts deployed
It's getting late and you're getting bored
With the status you cling to, ooh

Being alive is breathin' in and breathin' out, oh
Being alive is knowin' what you're gonna live for
It's knowing you got something you can't live without,
oh
Love, love, love, love, love, love, love

Do you ever wake up and find that you're
The only one that's standing still
Just part of the drill, no big deal
Today is just another thing to get through

And as the day goes passing by
I run down the list of things I meant to try
I meant to fly
I just never got around to it, ooh

Being alive is breathin' in and breathin' out, oh
Being alive is knowin' what you're gonna live for
It's knowing you got something you can't live without,
oh
Love, love, love, love, love, love, love

So say you will, so say you won't, give in when love
comes
And when it does, you're asking where will it come
from
You will live long enough to learn, long as you have
some
Love, love, love

Being alive is breathin' in and breathin' out, oh

Being alive is knowin' what you're gonna live for
It's knowing you got something you can't live without,
oh
Love, love, love, love, love, love, love, love

So say you will, so say you won't, give in when love
comes
And when it does, you're asking where will it come
from
You will live long enough to learn, long as you have
some
Love, love, love
