Let me take a second just to breathe
Find a place just for me
Where the silence washes over
Where I see the horizon
Close my eyes it's like I'm flying
That's where it all makes sense to me

I don't need for you to try to fix the world this time
I just want your heart to break every time I cry
Stop the music don't say a word
Cause what I need right now is something real
I just need to feel, feel, feel...

Maybe I just need to go through the rain
Try to understand the pain
Then I'll fall into your arms again
You always try to save me,
This time it's not what I need
I'm not afraid to do this on my own

Cause I don't need for you to try to fix the world this
time
I just want your heart to break every time I cry
Stop the music don't say a word
Cause what I need right now is something real
I just need to feel, feel, feel...
[x2]

I need to feel, feel, feel...
