Visit "[Lovin' You](#)" on MotoLyrics.com

I gave you the best of me and you throw it all away
So much time and energy oh what a waste
Pages of my life I wish that I could erase
Pieces of my broken heart that I can't replace

Maybe I, I got in deeper then you wanted to go
Maybe I, I should've seen it coming I should've known
Maybe I, I loved you way too much
thats where i went wrong
S.O.S I need some help I cant save myself, no

I wish I could stop my heart from lovin you
I do, I do cause nothing ever seems to work
Didnt know love was supposed to hurt
Lovin' you is killen me

Symbol of gravity safe for a soul
Without roots the tallest tree is going to fall
Nothing you can do to stop it
Nothing you can do to save it
Best thing for me to do it
Get outta the way

I wish I could stop my heart from lovin you I do, I do
cause nothing ever seems to work Didnt know love was
supposed to hurt Lovin' you is killen me

(Killen me)
Every look is (killen me)
Every Touch is (killen me)
Every single kiss is (killen me)

I try to get away cause im dying everyday
My mind says leave but my heart says stay

I wish I could stop my heart from lovin you I do, I do
cause nothing ever seems to work Didnt know love was
supposed to hurt Lovin' you is killen me
