No thanks
No more
No love
I'm done
I've had enough
You're going off with her
and I wish that I was
but there's another 'can be'
just because

Alright
Be on your way
The kindest thing to say
is not that you are falling for me
say you'll come back to my arms again someday

Oh baby write some words about
how you can't shut me out
how you must find a way
to see me one more time
one more time

and please call up all your friends
and tell them it can't end
you don't know what you'd do
if you lost her
and lost me too

That's fine
That's good
That's nice
I understand the price
the cost of craving dark instead of light
I flip the coin to see if you still care tonight
My blood
my hand
my soul
I throw them under you without control
the things i freely give
you stole
and now I'm left in pieces

Oh baby tell the world about me
the way you won me over in a city you can't remember
You think it was September
sweet September
Oh baby, well it's alright
I know she needs you more than I do
and I wouldn't win this fight
but there's one thing that you've gotta do....

You've gotta tell the world about a girl you once knew
Oh she wasn't meant to be
but you fell so very deeply
in love....

with me

...to all the girls he's loved
