"Saturday Morning"

Visit "[Saturday Morning](#)" on MotoLyrics.com

It's Saturday morning and we got off late
Baby, I've been missing you in the strongest place
All other days of the week have come down to this
Just kiss me, we'll be okay

There's no one around here that I would miss
Mad, if you were away

It's a little, it's a little luck, it's a little so oh, oh, oh, what
It's a little, it's a little love, it's a little love for what we've got
It's another day to start making up
Oh baby, just look how lucky we got

Saturday morning and we got no other place to be
Baby, when you're lying in my arms we seem to fit so perfectly
Oh honey, honey, please just stay right next to me
Maybe we could do this other day of the week

It's a little, it's a little luck, it's a little so oh, oh, oh, what
It's a little, it's a little love, it's a little love for what we've got
It's another day to start making up
Oh baby, just look how lucky we got

And it's a little, it's a little luck, it's a little so oh, oh, oh, what
It's a little, it's a little love, it's a little love for what we've got

It's a little, it's a little luck, it's a little so oh, oh, oh, what
It's a little, it's a little love, it's a little love for what we have got
It's another day to start making up
Oh baby, just look how lucky we are

How lucky we are
How lucky we are
