I can feel your breath
Coming over me
All that I have left
Is laying at your feet

I saw you walk and time was standing still
I promised you that I'd be waiting here
With one last breath
To tell you that you're all I want

To tell you that you're all I want

I am standing here
Asking you to speak
And take away this fear
It's burning holes in me

I saw you walk and time was standing still
I promised you that I'd be waiting here
With one last breath
To tell you that you're all I want

To tell you that you're all I want

So here we are
Somehow I knew we'd get this far
A million miles, a million nights
It took some time but now it's right
Oh, it's alright

I saw you walk and time was standing still
I promised you that I'd be waiting here
With one last breath
To tell you that you're all I want

To tell you that you're all I want

Yeah, yeah

I saw you walk and time was standing still
I promised you that I'd be waiting here
With one last breath

To tell you that you're all I want

To tell you that you're all I want

To tell you that you're all I want

To tell you that you're all I want
