Hold my hand
I'll walk you there
Through the doors
And up the stairs
Take my hand
We're almost there
You're not alone
You no I care
You no I care

Together
We can make it through
You no I'm here for you
You no I'm here for you

You're not alone
When everythings unknown
You no you've got a friend
When your full of doubt
And it seems
There's no way out
Through all the wrongs
And ups and downs
You'll be stonger
In the end

Hold my hand
I'll help you grow
I'll help you stand
When you feel alone
When you feel alone
I'll never turn
My back on you
I know it's something
You would do
It's something
You would do

You're not alone
When everythings unknown
You no
You've got a freind

When your full of doubt
And it seems
There's no way out
Through all the wrongs
And ups and downs
You'll be stonger
In the end

Well make it through
Don't let it break you

Hold my hand
When you feel lost
(Or love)
Hold my hand

You're not alone
When everythings unknown
You no
You've got a freind
When your full of doubt
And it seems
There's no way out
Through all the wrongs
And ups and downs
You'll be stonger
In the end
