I must admit that I'm in a bit too deep
It seems this is not my teeth-losing dreams
You can look all you want to
But I'm afraid you won't find her the same
I agree, she's a handful
But she slips right through my fingertips
But you wouldn't understand

Oh no
Don't make me try to explain
If you knew her, you'd feel the same
I fall from mountains just to get her attention

This time it was different
It was late, we were talking about something
The rain interrupted and blades caught up with my
pulse
The car never left the driveway

She's so sweet, green eyes, pineapple heart
I didn't mean to scare her
But sometimes her words get in to my blood
But it's worse when she's quiet
That's all I remember
Blue lights, blacked out

I don't know
Don't make me try to explain
If you knew her, you'd feel the same
I saw it coming
But it shouldn't have happened this way
What have I done?

I know
Don't make me try to explain
Woah
If you knew her, you'd feel the same
I'd fall from mountains to get her attention
What have I done?
