We've been through a lot you and I  
All in the name of love  
Instead of finding paradise  
It's been a game of push and shove  
Sometimes in the morning we seem to get along so  
well  
But by the night, I wonder if you're friend or foe  
Coz I can't really tell  
and I'm askin' myself what did I forget  
Where did I go wrong?  
I'm not short on my faith but I' tellin' you  
This has gone on for so long  
It wasn't enough to believe in you, with everythin' I had  
It wasn't enough, though whether rain or shine  
I was here through good and the bad  
I can't carry all the load this way  
I can't keep us in love alone  
There's gotta be more than me I gave it all  
It wasn't enough
