Watch you mouth. Hold your tongue boy.  
Because you're running out of breath,  
running out of time before every careless word that  
you utter,  
renders you utterly useless.  
Now you're drowning in your own saliva  
Trying to spit yourself to the top of your empty world  
Keep on talking, just keep on rambling, You've got your  
mouth full.

Listen here's the pleasant part:  
you and I, we fell apart  
Listen here's the pleasant part:  
you and I, we fell apart

Why can't you make up your mind? (Make up your  
mind)  
Why can't you make up your mind? (Make up your  
mind)

Shut your mouth, burn your bridges  
Throw your words like an attack and stab me in the-  
Wait a second. Wait a second. What's that I just heard?  
Never mind it's obviously worthless.  
Now you're standing on your soapbox, yelling from the  
rooftops (rooftops)  
Everything you say is a lie..a lie..a lie..lie...lie...yeah

Listen, here's the clever one  
who speaks before his thoughts are done.  
Listen, here's the clever one  
who speaks before his thoughts are done.

Why can't you make up your mind?  
Why can't you make up your mind?

Watch your mouth. Hold your tongue  
Somethings are better left unsaid.  
Now I hope you're pleased.  
You let your pride stand tall  
It danced within your words.

Right before your fall.  
Right before you.....fall..

Why don't you  
Why dont you say that to my face?  
I've had ripped down, torn down so many things  
Every thing you, every time you,  
Every word you say  
If I told you this was killing me, would you,  
Would you stop?
