Looking back a lot has changed
Never thought there'd come a day
When everything we used to live for,
Everything we did and
Everything we say could fade away

(away)Away x5

Now we're left holding onto dreams
Small town kids, we're gonna get there
Now it's time
I see those city lights
I think it's time, time to...GO!

And we'll come back home,
When we hit the big time
And we'll come back, someday
And we'll come back home,
When we hit the big time
We'll come back...someday
(x2)

Someday... (x8)
