I know what you're thinking
But don't even try it
I know that you want me
But you're wasting your time
I know that you're scheming
But you might as well forget it
I know that you've been dreaming
But you're wasting your time, so..

Don't waste your time with me
Don't wait too long to see
What you really don't want to find
Baby, don't waste your time!

I don't want your money
I don't want you, honey
I never wanted your number
I never wanted your name
I don't need affection
I don't need protection
I never wanted nothin' from you
And that's the name of the gameâ€¦so

Chorus
