The scent of flowers in the air
Your perfume is subtle and everywhere
Breath so sweet and warm against my skin
I breathe in deep and take you in

Your beauty takes my breath away
And in your embrace is where I want to stay
I've got to do all that I can to get close to you
Whoa, yeah

Gaia I adore you
Gaia I implore you
Give us one more chance

In you I move, in you I live
Like a baby in a mother's womb
The gift of life is what you give
I'm so deeply filled with gratitude
My faith in life has been renewed

Your beauty takes my breath away
And in your embrace is where I want to stay
I've got to do all that I can to get close to you
Whoa, yeah

Gaia I adore you
Gaia I implore you
Give us one more chance
Gaia I adore you Gaia
I assure you I'll do all that I can to do right by you

The earth is our home
Tread softly upon her with respect and gratitude
